**A DIABETES MANAGEMENT SOLUTION  
THAT'S NOT ANOTHER MEDICATION**

# G7

### How does Dexcom G7 work?

The Dexcom G7 Continuous Glucose Monitoring (CGM) System sends glucose numbers in real time to a smart device\* or Dexcom receiver without the hassle of routine fingersticks† or scanning. This allows you to easily see your glucose levels and how fast they're rising or falling, so you can make confident decisions about food, activity, and medications.
